

International Cartographic Association

Working Group – Next Generation Cartographers

Code of Conduct

Purpose

To state the commitment of Next Generation Cartographers, as a group and for each individual member, to uphold ethical and professional standards of conduct.

Who The Policy Applies To

All members of the Next Generation Cartographers community, and Next Generation Cartographers as an ICA Working Group. We expect members to follow these rules at meetings, in person and virtual, related social events, online forums and spaces, including Discord and Telegram, social media, and in any other modality of engagement.

Policy Statement

Promote an inclusive environment. As a global group of students and early career cartographers, we welcome and support people of all backgrounds, identities, and abilities. We are mindful of power differentials within our community and prioritize the safety of marginalized people, and we take care to promote a positive environment. We engage in constructive criticism rather than challenging or attacking others with whom we disagree. Constructive criticism includes specific and actionable feedback with the intent of helping the recipient.

Treat others with respect and dignity. We engage in respectful conversation with one another. We will not always agree, but disagreement is not an excuse for disrespectful behavior. We do not tolerate abuse or harassment of community members or participants. Abusive behavior includes hurtful behaviors which are intimidating, rude, unwelcome, offensive, demeaning and that disrespect the dignity and autonomy of others. Harassment includes, but is not limited to:

- Offensive comments related to gender, gender identity and expression, sexual orientation, disability, group status, physical appearance, body size, race, or religion;
- False statements meant to harm a person's reputation;
- Publication of private communications;
- Non-consensual outing of any aspect of a person's identity;
- Deliberate mistitling, misgendering, or using 'dead' or rejected names;
- Stalking, in person or online;
- Deliberate intimidation or bullying, online or offline;
- Unwelcome photography or recording;
- Sustained disruption of talks or other events;

- Inappropriate physical contact;
- Unwelcome sexual attention.

Speak up and report violations. Everyone has the responsibility to report harassment. If you are being harassed, notice someone else being harassed, or if you have concerns, please reach out to (designated person) or Next Generation Cartographers leadership [members] right away with the following information:

- The name of the person submitting the report;
- The name of the person subjected to misconduct;
- The name (if known) or description of person committing misconduct (accused);
- A detailed description of the misconduct, including dates, times, locations, witnesses(if any) and any other pertinent information.

We will work to quickly address the problem. Reports remain confidential.

Responsibilities

As a member of Next Generation Cartographers, you are responsible for becoming familiar with and following this policy.

How Reports Are Handled

Next Gen Cartography will review all reports of misconduct. If warranted, a leadership meeting will be scheduled to discuss potential courses of action or consequences, including contact with the ICA Executive Committee.
